

EMMANUEL EDMUND KIISHWEKO

Computer Science Graduate | Programming Instructor | Web & Graphic Designer

Arusha, Tanzania • +255 742 165 407 • emmanueledmund00@gmail.com • github.com/EddieContra

PROFESSIONAL SUMMARY

Computer Science graduate working as a Graphics Designer, Project Facilitator, and Programming Instructor at E3Empower. Combines hands-on experience teaching programming and building full-stack web applications with a strong creative eye for graphic design and photography. Comfortable across the full design and development stack — from React, TypeScript, and Tailwind to Illustrator, Photoshop, and Premiere — and currently expanding into machine learning and AI.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, TypeScript, Java, C++, Bash
- **Frontend:** React, HTML, CSS, Tailwind CSS
- **Backend & Databases:** Node.js, SQL, MongoDB, database design
- **Data Analysis:** Pandas, NumPy, Matplotlib
- **Design Tools:** Adobe Illustrator, Photoshop, Premiere Pro, Lightroom; Affinity; Figma; Canva
- **Photography:** Editorial, event, and product photography — shooting and post-processing
- **Tools & Workflow:** Git, GitHub, VS Code
- **Currently Learning:** Machine Learning and AI fundamentals

EXPERIENCE

Graphics Designer, Project Facilitator & Programming Instructor

E3Empower

Jan 2025 – Present

Arusha, Tanzania

- Lead programming instruction across multiple languages (Python, JavaScript, and others), adapting curriculum to learners of different ages and skill levels.
- Facilitate the JA Africa Social Equity Programme (SEP) in Tanzania — delivering sessions and producing the supporting instructional materials.
- Produce graphic design and visual content using Adobe Illustrator, Photoshop, Affinity, Figma, and Canva for newsletters, certificates, course materials, and internal communications.
- Built a React.js dashboard and a structured set of HTML, CSS, and Tailwind exercises now used as teaching resources.
- Developed a Computer Basics course covering core concepts for first-time learners.
- Contribute to monthly newsletters covering tech-hub installations, training programs, and youth-focused initiatives such as Future of Tanzania.

Intern — Graphics Design & Programming Support

E3Empower

Aug 2024 – Jan 2025

Arusha, Tanzania

- Supported delivery of programming classes and produced design assets for course materials and internal communications.
- Contributed to multiple newsletter editions and created visual identity assets, including prefect certificates and a student collage project.
- Promoted to a permanent role at the end of the internship.

Practical Field Training — TTCL (Tanzania Telecommunications Co. Ltd.)

Network Trainee

Jul 2023 – Sep 2023

Arusha, Tanzania

- Assessed and maintained network operations for residential and business customers.
- Installed and configured communication services on customer sites.
- Worked alongside engineers to troubleshoot connectivity and service issues.

Volunteer Staff — E3Empower

Programming & Robotics Mentor

Dec 2018 – May 2019

Arusha, Tanzania

- Taught programming fundamentals to young learners using Scratch 3.0, including a Pong game project.
- Ran LEGO Robotics and Arduino-based workshops covering build and program logic for beginner robotics.
- Developed lesson plans and educational materials tailored to different age groups.
- Provided one-on-one coaching to build confidence in coding and problem-solving.

PROJECTS

Five Star Tourism System

Individual Project

Full-stack travel-booking platform with separate user and admin roles. Users can browse and book travel packages and manage their bookings; admins can add, update, and delete packages and manage user accounts.

Repository: <https://github.com/EddieContra/tourism-system>

Library Management System

Individual Project

Software application that automates library operations — book inventory, member records, borrowing and returns, and overdue notifications — built to improve librarian productivity through a clean, user-friendly interface.

EDUCATION

Bachelor of Science in Computer Science

Institute of Accountancy Arusha (IAA)

2021 – 2024

Arusha, Tanzania

- Coursework: Object-Oriented Programming, Artificial Intelligence, Distributed Systems, Databases, Web Design, Systems Analysis & Design, Information Security, Internet Programming.

Advanced Certificate of Secondary Education

Same High School

2019 – 2021

Same, Kilimanjaro

Certificate of Secondary Education

Ngarenaro Secondary School

2015 – 2018

Arusha, Tanzania

REFEREES
